

Science Adventures

After-School Science Clubs 2008-2009

At Science Adventures After-School Science Club children experience scientific discovery while being exposed to science concepts through experiments, activities, and take-home projects. Our fun topics are designed to capture children's interest and are aligned to National Science Standards.

After-School Science Clubs meet one day per week for five weeks at your location. Clubs meet for one hour and run throughout the year. We send our instructor to you! To schedule clubs on your campus, call us now!
